**WE WELCOME...**

## **NET OPTICS**

**TO PEOPLE-TRAK HRIS, A LEADER IN HR SOFTWARE!**

Net Optics is the global leader in passive monitoring access for security and network management applications. Their innovative family of hardware products enables companies to access and monitor their network using the latest Intrusion Detection and Prevention Systems, Protocol Analyzers, and Network Probes. Their products enable customers to have 24/7 passive network access and 100% visibility without ever introducing a point of failure.

Net Optics came to People-Trak HRIS when their HR Manager knew the organization was ready for serious HR software. The Excel spreadsheets they had, had become cumbersome for tracking and reporting purposes. They wanted HR software to help them manage their employee data, that could also interface with their ADP payroll application. People-Trak offered everything they were hoping for, a comprehensive, user-friendly and affordable HRIS.

We are very happy to welcome Net Optics to People-Trak HRIS, a leader in HR software!
